

I'm not robot!

Put it this way - if I didn't work at AMSOIL, I'd be an independent AMSOIL Dealer. Here's why. The AMSOIL Dealer opportunity has been around since 1973. Many Dealers enjoy selling part-time as a way to help fund their passion, like racing, restoring cars, riding motorcycles or traveling. Some have grown their Dealerships into full-time jobs. If you're wondering whether becoming an AMSOIL Dealer is worth it, you've come to the right place. Check out the video for a snapshot. \$50 (\$65 in Canada). That's all it takes to register, get your Dealer Kit and get started. Starting a business can be a hassle, one of the biggest hurdles being inventory. The AMSOIL Dealer opportunity doesn't force you to have an inventory of products (although some Dealers choose to inventory products to sell to people in their area). You can sell AMSOIL products and fulfill your orders from AMSOIL directly. We have 13 distribution centers in the U.S. and Canada to make sure orders ship quickly. More than 99% of orders placed by 5 p.m. CT, Monday through Friday, are processed and shipped within 24 hours. Even more impressive, more than 96% of orders in by noon are shipped the same day. And 99.9% are accurately fulfilled. Not only that, but Dealers get free shipping on orders of \$400 or more (\$450 in Canada). Support when you need it AMSOIL maintains a team that can help you with any questions you may have. We also provide access to several free training resources through the online AMSOIL Dealer Zone designed to help you learn more about lubrication fundamentals and AMSOIL products. We also host online training events from time to time as well. Unlike other direct-marketing opportunities, as an independent AMSOIL Dealer, you are encouraged to grow your customer base by talking to individual people, retailers, commercial businesses and other potential AMSOIL Dealers. Most new Dealers start by making personal purchases and registering friends, family and acquaintances as AMSOIL Preferred Customers (P.C.s). We promote AMSOIL products through events, sponsorships and national advertising so Dealers have a reputable brand to sell. The Product Guides at AMSOIL.com/AMSOIL.ca are my favorite AMSOIL tool. They help you find everything you need for nearly anything with an engine. It works as a sales tool when you're talking to customers who ask you what products to use in their vehicles. MyAMSOILGarage is another great tool that would probably cost money from a different company. But it's free for everyone. This tool lets you store vehicle maintenance information and set up service reminders, like when to change oil or transmission fluid. Dealers use this tool to keep track of their customers' vehicles so they can send friendly reminders when it's time to change oil or other fluids. Event opportunities AMSOIL Dealers can leverage the work of our marketing team by selling AMSOIL products at events we sponsor. Customer promotions Signing up AMSOIL Preferred Customers (P.C.s) is a tried-and-true way to build a strong customer base. We help by providing P.C.s free shipping on orders of \$100 or more (\$130 in Canada). Alongside that, we send email promotions to P.C.s, incentivizing them to place orders, which builds your income. If you're a gearhead, you've probably come across our products. And, while I can go on and on about how we deliver the best products on the market, it's more powerful to hear from AMSOIL users, such as the people who left these product reviews: "Keeps my engine clean, while lubricating all the necessary parts; I am a big fan of quality products, so what I use in my vehicles is no different. I usually change my oil every 10k miles in my 2016 Power Wagon. I have that confidence because I look at the oil that comes out. Never have I seen or smelled burned oil." - Michael, verified buyer from Alabama "Excellent product, first time running AMSOIL, I noticed my diesel run smoother immediately." - Matthew, verified buyer from New Jersey We rigorously test our products in our labs and via third-party independent facilities. For example, AMSOIL Signature Series Synthetic Motor Oil provides 75% more engine protection against horsepower loss and wear, as shown here. Our diesel oils are great, too. In fact, independent testing shows that AMSOIL Signature Series Max-Duty Synthetic Diesel Oil provides 6X more wear protection than required by Detroit Diesel's standard.1 "Based on independent testing in the Detroit Diesel DD13 Scuffing Test for specification DFS 93K222 using 10W-30 as worst-case representation. To protect the opportunity for all Dealers, there are a few rules of the road you need to follow: No posting AMSOIL product pricing online (such as eBay, Amazon, Craigslist, forums, etc.). "AMSOIL" may not be used in your Dealership name or website domains. Always identify yourself as an independent AMSOIL Dealer to avoid confusing yourself with AMSOIL INC. A Dealership provides an opportunity to make money selling AMSOIL products to new customers. Respect the work of your fellow Dealers by not interfering with their active customers or accounts. These are the highlights; you'll have a chance to review all our Dealer policies when you register. It's also important to note that an AMSOIL Dealership is not a get-rich-quick scheme. It takes skill, hard work and time to build an AMSOIL Dealership. Some Dealers succeed, while others don't, just like any opportunity like this. But we provide all kinds of resources to help you get started. If you are ready to grow your income by selling AMSOIL products, click below to get started. It's a question that is causing huge discussion after a controversial Sony blog talked about 1080i support for "nearly HD" sets. Currently, to qualify as HD in the UK, sets must be 720p or 1080i, with so-called Full HD or True HD sets having 1080p. The Prime Day deals are still running - see what's still hot to buy! HD Burnout So when Burnout Paradise designer Simon Phipps wrote on the Sony blog: "Plus heaps more, including: 1080i support for PlayStation 3 owners with "almost HD" sets", it sparked something of a reaction. "Really appreciate the 1080i support, but calling 1080i TVs "almost HD" is a real dumb move- just because you don't like it doesn't make it a real HD res. My 1080i CRT tv will blow the doors off 75% of the LCDs out there in the picture quality department," posted one commentator. Telly wars "That said, the HDTV specification is 1080i or 720p — BOTH are full high definition, BY DEFINITION. Neither is "not quite HD". I love my 1080i CRT HDTV compared to almost every 720p LCD screen I've ever seen and anyone else who owns one can probably tell you the same. Do some research before venting next time — 1080i IS HD. Real HD. The HDness. Completely HD..." posted another. Are we beginning to see an HD telly class war - with the Full HD crowd smugly grinning at the poor old HD Ready lot? It's certainly prompted a bit of a debate.
